

XPERIENCE DAYS

October 01, 2026

LECTURE SERIES ON **3D METROLOGY**

08:00	Arrival and reception of the guests
09:00	Welcome
09:15	„Top Trends in Optical Metrology“ <i>Dr.-Ing. Peter Ebert (inVISION Magazine)</i>
09:35	„Non-contact precision sensors ensure production within specifications“ <i>Dr. Alexandra Tebartz (Precitec Optronik GmbH)</i>
10:15	Coffee Break
10:45	„Optical measurement of flatness parameters on semiconductor wafers“ <i>Dr. Ulrich Kretzer (Freiberger Compound Materials GmbH)</i>
11:15	„Optical metrology systems for production control and quality assurance across multiple industries“ <i>Dr. Jürgen Koglin (FRT Metrology, a Camtek company)</i>
11:45	Hands on metrology, live measurements + guided tour clean room
12:30	Lunch
13:30	<i>The speaker has not yet been confirmed</i>
14:15	„Chips for AI - challenges and requirements in production for metrology inspection“ <i>Dr. Oliver Schulz (Precitec Optronik GmbH)</i>
14:45	Coffee Break
15:00	Hands on metrology, live measurements + guided tour clean room
16:30	End of the event
