

FORMCUTTER PLUS OPERATOR TRAINING

Have you purchased a FormCutter or already integrated it into your system and would now like to be able to carry out proper and first-class operation, maintenance and repairs?

IN THIS TRAINING YOU WILL LEARN EVERYTHING ABOUT THE FORMCUTTER AND ITS VARIANTS.

We first introduce you to the maintenance procedures and then put them into practice. This training is particularly necessary for changing optical modules and all other qualified topics according to the operating instructions. It ensures smooth installation, replacement and operation.

Target group: Operators and plant managers

Training location: Gaggenau

Goals:

- Service
- Correct parameters
- Change characters

Duration: 2 days

Number of participants: Maximum 6

Food: Meals are provided on site and are included in the price.

Seminar conclusion: After successfully completing the training, a certificate will be issued with the areas of focus learned.

Price on request
